EDUCATION

2019
In 12th standard I scored 65% marks form science section.
Maharana Pratap Senior Sec. School.

Pursuing a CSP course (Computer Software Programming)
IANT (Institute of Advanced Network Technology)

EXPERTICS

- HIML, CSS
- JavaScript
- Bootstrap, Tailwind
- React Js
- C, C++ (basics)

PROJECTS

Netflix Clone (React JS)

It is a Netflix clone where I used firebase authentication to log in or sign up. I used TMDB (The Movies Database) website for some random movies data. React makes easy to understand it.

Weather App (React JS)

This web app is created with React Js with tailwind CSS and open Weather API to fetch the data of weather of different places. In this we can also search different places and get the weather accordingly.

Bubble Game (HTML, CSS & JS)

This helped me to understand the concept of DOM manipulation. In this game computer will show you a random number and some options of numbers, you have to find that random number and hit it form options & make your score in a limited time period.

News App (HTML, CSS & JS)

This is fully updated news app where you can read various news and articles according to your interest. This app was very helped full for me to know about asynchronous JavaScript.

CERTIFICATION

- **SCSU** (Star Cyber Secure User)
- **SITE** (Star Information Technology Essentials)
- **C** programming Language
- **C++** programming Language
